

Guide Intro Letter for your MP

by [Chemtrails Project UK](#) on Monday, 30 July 2012 at 22:05

- Adapt this letter in any way you feel appropriate and attach the **DIRECTIVE to all UK MPs to Pass and Enforce the Ban of Geoengineering of UK Skies via the The Unified Atmospheric Preservation Act** (download at this link - <http://www.mediafire.com/view/?bi6ly6wc7q1bbyg>)

Dear Mr/Mrs/Ms MP

As one of your constituents, I am writing to stop the geoengineering of our skies which is producing the most damaging alteration of the earth's atmosphere to date. Seen by tens of thousands of people "in plain sight" in the UK skies and indeed by millions around the world, Stratospheric Aerosol Injection, (SAI) a technique of Solar Radiation Management (SRM) is officially recognised by the UK Government via the Solar Radiation Management Governance Initiative (SRMGI) This technique is commonly known as chemtrails.

As seen in the SRMGI homepage video explaining Stratospheric Aerosol Injection <http://www.srmgi.org/> at 4.07 it shows typical chemtrailing – currently already in operation in our skies. They appear as a white line in the sky, spreading out to form huge simulated cloud cover from horizon to horizon often with visible particulate matter falling. Almost daily, it is blatantly apparent to witness this SAI technique from high elevated jet airplanes flying above normal passenger flight paths forming grid patterns and other random desecration of our natural, blue sky. Unlike water vapour, the fact that these jet emissions do not dissipate means that they are of particulate matter that is not currently being taken into account with current escalating air pollution levels. Contrails are unadulterated and disappear within 2 minutes while SAI lasts for hours as their primary function is to block the sun – one of the stated intentions of the SRMGI 'hypothetical' methods to counteract 'alleged' global warming.

Listed here and explained in the enclosed Directive are the main problems and facts connected to this activity which are occurring in the UK and to which you can inform yourself and then act upon this immediately:

- **AIR POLLUTION is the BIGGEST KILLER IN THE UK.**
- **DENIAL AND/OR STONEWALLING THIS ISSUE IS NO LONGER AN OPTION**
- **WEATHER MODIFICATION – the unofficially acknowledged contributor to climate change**
- **WEAPONISED WEATHER EXPOSED**
- **'STRATOSPHERIC WELSBACH SEEDING FOR REDUCTION OF GLOBAL WARMING' patent**
- **INDEPENDENT UK LAB RAIN WATER TEST RESULTS REVEAL HIGH LEVELS OF HEAVY METAL TOXICITY**
- **APPLICATION AND ALLOCATION OF 'FREE' (aviation emission) ALLOWANCES!!**
- **DELIBERATE STIGMATISING of TERMINOLOGY TO DISCREDIT PUBLIC CONCERN**
- **AVIATION EMISSIONS FORM FAR-REACHING CIRRUS CLOUD COVER - irrefutable**
- **UK GOVERNMENT ADMITS AVIATION EMISSIONS POLLUTE 2-4 TIMES GREATER THAN CO2**
- **LACK OF SUNSHINE DUE TO CONTRAIL CIRRUS CAUSES VITAMIN D LEVELS TO PLUMMET WORLDWIDE**

- **UNMARKED JETS CAUSING CONTRAIL CIRRUS CLOUD COVER UNTRACKABLE WITH PUBLICLY ACCESSIBLE FLIGHTCHECKER**
- **THE WEATHER IS BEING TRADED ON THE STOCK MARKET**
- **INTERNATIONAL, CLANDESTINE WEATHER MODIFICATION PROGRAM IS A FACT**
- **INTERNATIONAL AGREEMENTS AGAINST ANTHROPOGENIC AIR POLLUTION AND WEATHER MODIFICATION (CLRTP & ENMOD)**
- **PUBLIC MANIPULATION**
- **THE PUBLIC ARE NOT HAPPY ABOUT ANYTHING BEING SPRAYED ON THEM - NOT EVEN WATER**
- **FOLLOW THE MONEY**
- **THE LIE OF THE GLOBAL WARMING JUGGERNAUT NOW BEING USED TO JUSTIFY SRM USING S.A.I. MUST CEASE IMMEDIATELY**
- **The ENTIRE GREEN INDUSTRY risks implosion for the very same financial reasons when the lie is fully exposed.**
- **DDT - A REMINDER - THIS HAS HAPPENED BEFORE**

The presence of elevated levels of heavy metals as seen in the rainwater test results enclosed, shows that the toxic patented ingredients of SAG are present in our own back yards. Also included is the most comprehensive letter of response thus far received by concerned citizens by Mr Gregory Barker MP addressed to Ms Tessa Munt MP with regards to this same issue. It is not an acceptable response. Therefore, I implore you to address the aforementioned further issues that he has not acknowledged nor yet taken action against.

He states that the UK Parliament will be using the findings of the recent Royal Society funded Solar Radiation Management Governance Initiative (SRMGI) as a source to inform your position, yet **public awareness of the technique I bring to issue, called Stratospheric Aerosol Geoengineering, (SAG) has been deliberately suppressed.** They indict themselves about the deliberate manipulation of the public in their own notes –

" Involve general public because a) they pay for it, b) they have the power to stop it. Keep them informed on what GE (geoengineering) is for, but don't necessarily ask their permission."

The citizens of the UK have **not** been informed **nor** given our permission and **refuse** to pay for the proposed yet clearly visible and ongoing Solar Radiation Management Program that you see being performed every day all over the UK which is blocking our sun and allowing toxic fallout to poison the population and the environment.

I present to you "The Directive to Parliament to Pass and Enforce the Ban of Geoengineering of Our Skies via the "The Unified Atmospheric Preservation Act". " It includes further references of the evidence and proven dangers of geoengineering being the reasons to stop it. It makes a case against this illegal activity which is being deliberately inflicted upon UK citizens without their permission or awareness.

Taken from Parliament's own documents, they state that they are watching the stratosphere very carefully, as should you, because as they say ".. **I do think we need to watch the stratosphere very**

carefully, but at the same time, in terms of regulation of the others, get ahead of the game, precisely because firstly, you want to keep the public on side, if we lose the public, then we lose the game", reveals Parliament is playing a game by gambling with our lives and the future of mankind. This is no longer acceptable and all records and accounts of geoengineering must now be made public.

(<http://www.publications.parliament.uk/pa/cm200910/cmselect/cmsctech/221/221.pdf>),

(SAG) is creating the climate change and producing the man made global warming that geoengineering is supposed to be counteracting! Therefore, I ask you to attend to the overdue voice of your constituents who know that we can because the SRMGI have acknowledged that we have the power to stop it. Please bring the following directive to the attention of the UK Parliament, people and all elected officials to enforce the concluding law "**The Unified Atmospheric Preservation Act (UAPA)**" to ban this activity. This law must be passed and enforced immediately to preserve our atmosphere and all life depending on it.

Please reconnect to your heart and conscience when you consider, in your response, if are you following codes of compliance over political and personal responsibility while attending this most urgent of all our UK community's priorities because in the words of **Dr. Ilya Sandra Perlingieri** "Denial is a very powerful human emotion. In the hustle and bustle (now quite out of hand, for reflective time), how many people look up at the sky? It also takes huge courage, a very deep, internal willingness to examine politically motivated corporate controlled media spin, and search for the real answers. Humans like their regular routines. To re-examine what we think we know, based on new evidence, takes a willingness to think outside the proverbial box; to want to find out the truth –not the pervasive Orwellian doublespeak that pervades our society. If everything in our daily routine belies what is truly going on, it requires fortitude (and a dedication to integrity) to explore the unknown – to question the litany."

I appreciate your immediate attention to this urgent matter and I look forward to your reply.

Yours sincerely,

.....

Gregory Barker MP

June 2012

Dear Tessa,

Thank you for your letter dated 6 June, enclosing correspondence from your constituent, Ms Sally Parker of ~~40 Stone Lane, Chesham, Bucks HP80 1BB~~, about geoengineering and chemtrails.

First and foremost, the Government remains committed to tackling the human causes of global warming *at source* by reducing emissions of greenhouse gases and we will continue to push for strong international action to achieve this.

The UK Government's position on geoengineering is still under development. There are a number of initiatives currently underway to explore this issue further, including the Royal Society's Solar Radiation Management Governance Initiative and preparations for the Intergovernmental Panel on Climate Change's Fifth Assessment Report, and we will use the findings of these discussions to inform our future position.

Last September, the Government published its response to the House of Commons Science and Technology Committee's report on international and national regulation of geoengineering, available at www.official-documents.gov.uk (Command paper 7936). This document outlines our position on the governance of geoengineering and the need to ensure responsible and safe conduct by researchers.

DECC knows of no evidence to support the assertion that 'chemtrails' are being deliberately released into the atmosphere. The UK Government has not seen any credible observational evidence that proves that 'chemtrailing' is taking place, either as part of large-scale geoengineering or for any other purpose.

Yours ever,

A handwritten signature in black ink, appearing to be "Gregory Barker", written over a vertical line that extends from the "Yours ever," text.

Rainwater test - SW12 London UK - 17/04/2012 - 2 different lab results -
 Compared with **MINIMAL RISK LEVELS (MRLs) as of February 2012**
 From the **Agency for Toxic Substances and Disease Registry (ATSDR)**
 Also – refer <http://www.epa.gov/air/criteria.html>

	Government lab	Independent lab	ATSDR - MRLs
pH	not given	6.06	5.6 (normal rainwater pH)
Al - Aluminium -	10.5 ug/l	740.00 ug/L	1.0 mg/l
Fe - Iron -	5.7 ug/l	1,270.0 ug/L	
Mn - Manganese -	9.6 ug/l	31.0 ug/L	0.04 ug/m3
As - Arsenic -	not tested	1.3 ug/L	0.005 mg/kg/day
P - Phosphorus -	0.026 mg/l	not tested	0.02 ug/l
S - Sulfur -	1.427 mg/l	not tested	0.01 ppm
Ba - Barium -	12.8 ug/l	37.00 ug/L	0.2 mg/l
Cd - Cadmium -	<0.1 ug/l	not tested	0.00003 ug/l
Co - Cobalt -	0.2 ug/l	not tested	0.0001 ug/l
Cr - Chromium -	0.5 ug/l	not tested	0.000005 ug/l
Cu - Copper -	13.7 ug/l	70.0 ug/L	0.01 mg/kg/day
Ni - Nickel -	1.1 ug/l	not tested	0.0002 ug/l
Pb - Lead -	22.1 ug/l	not tested	0.15 ug/m3 for 3month period – (EPA - NAAQS)
Si - Silicon -	0.426 mg/l	not tested	
Sr - Strontium -	19.2 ug/l	not tested	2.0 mg/l
Zn - Zinc -	31.4 ug/l	90.0 ug/L	0.3 mg/kg/day
B - Boron -	5.3 ug/l	not tested	0.3 ug/l
Na - Sodium -	3.178 mg/l	not tested	0.05 mg/kg/day (fluoride, sodium)
K - Potassium -	1.059 mg/l	not tested	-
Ca - Calcium -	6.146 mg/l	not tested	-
Mg - Magnesium -	0.459 mg/l	not tested	-

ppm - parts per million parts of air
 ppb - parts per billion parts of air
 one milligram per cubic meter (mg/m³) is the same concentration in water as one microgram per liter (ug/L), which is about 1 ppb
 microgram/liter (ug/L) is the same as milligram/cubic meter (mg/m³) No conversion is necessary.
