

## **DIRECTIVE to all UK MPs to Pass and Enforce the Ban of Geoengineering of UK Skies via the The Unified Atmospheric Preservation Act.**

This is not an enquiry - this is a directive from your constituents and the wider UK public to perform your duty as paid representatives sworn to serve the 'public' welfare of the British public OVER and ABOVE ALL private interests - to acknowledge, attend and enforce the immediate cessation of the long-standing, illicit, aviation aerosol spraying of the UK population, previously stonewalled and denied by all authorities, yet witnessed and documented by tens of thousands of citizens throughout the UK and the world for well over a decade.

The truth of what thousands of people are experiencing and documenting is, as described in the House of Commons Science and Technology Committee's report on The Regulation of Geo-engineering, the **Solar Radiation Management** technique officially known as **Stratospheric Aerosol Geoengineering** (S.A.G.) ie the release of large quantities of aerosols into the atmosphere from jet airliners - currently being 'proposed', yet clearly already in action. Under the more commonly used term for SAG, '**chemtrails**', a simple search online will bring up the 9,100,000 chemtrails videos and 8,760,000 articles about chemtrails. This many entries, searches and enquiries confirms this is no conspiracy 'theory' invented by the public, but a fact, in plain sight, being stonewalled by authorities to all public concerns. Any refusal to believe that a government could allow this to be done on its population is pure denial of truth, as 'spraying' of the British population has already been documented and ADMITTED by the British government.

refer - '**Millions exposed' in 1960s experiments** -

<http://news.bbc.co.uk/1/hi/england/2254664.stm> & **Millions were in germ war tests - Much of Britain was exposed to bacteria sprayed in secret trials** -

<http://www.guardian.co.uk/politics/2002/apr/21/uk.medicalscience> "these tests involved releasing potentially dangerous chemicals and micro-organisms over vast swaths of the population without the public being told."

**Contents for your expedient edification followed by the proposed Unified Atmospheric Preservation Act:**

## ***DENIAL AND/OR STONEWALLING THIS ISSUE IS NO LONGER AN OPTION***

Claims of ignorance or denial to this activity will no longer be tolerated. The irrefutable, authoritative facts of this truth are provided below with links. This illegal aerosol operation being perpetrated on the British public without their awareness or permission and in violation of the 1978 Environmental Modification Treaty - ENMOD - [https://en.wikipedia.org/wiki/List\\_of\\_parties\\_to\\_the\\_Environmental\\_Modification\\_Convention](https://en.wikipedia.org/wiki/List_of_parties_to_the_Environmental_Modification_Convention) - those found complicit by denial and stonewalling will be prosecuted in due course in a court of law.

The current, escalating PR campaign in the mainstream media to sway the public into supporting S.A.G. to counteract 'global warming' is blatantly disingenuous. The ongoing charade to delude the public that 'justice' is being done - aka the Leveson Enquiry - clearly exposing the entrenched collusion of corruption between government, media and the MET steered by private interests confirms the same private interests are still in charge escaping legal prosecution. Any and all extreme weather events reported in the mainstream press continue to be steered to perpetrate the lie of global warming, despite the fact that 31,487 American scientists have signed a petition, including 9,029 with PhDs denouncing this heinous fraud designed by the same 'private interests' purely to inflict yet another illicit tax on members of the public globally (see <http://www.petitionproject.org/>) The UK's highly regarded astrophysicist, Piers Corbyn, has proven, irrefutably, that the sun affects the Earth's 'climate' beyond any anthropogenic Co2 emissions. See <http://www.british-gazette.co.uk/climate-change-a-fraud-exposed-scientist-piers-corbyn-debunks-the-climate-change-alarmlists/>. Add to that, a study by CERN - the CLOUD experiment (Cosmics Leaving OUtdoor Droplets - <http://press.web.cern.ch/press/PressReleases/Releases2011/PR15.11E.html>) which also confirms it is "solar radiation and not human activity that drives Earth's climate".

## ***WEATHER MODIFICATION – the unofficially acknowledged contributor to climate change***

The words 'climate' and 'weather' are NOT simply interchangeable terms as weather can and is able to be manipulated with current technology - but the global-warmist PR campaign has abused this interchange to serve its own agenda exposed below. There is no force more powerful than the sun driving our climate but extreme weather events and abnormalities of natural cycles being experienced globally are NOT solely due to solar-induced climate. As the search results above confirm, millions worldwide are exponentially becoming aware through their own common sense and observation that the skies and weather are being manipulated by the copious 'weather modification programs' CURRENTLY in operation globally and financed by the same 'private' interests to great detrimental effect on people and the environment. Even NASA themselves admit that - **“any change in global cloud cover may contribute to long-term changes in Earth's climate. Contrails, especially persistent contrails, represent a human-caused increase in the Earth's cloudiness, and are likely to be affecting climate and ultimately our natural resources...”** Consequently, there is absolutely no justification that even further irresponsible and illegal experiments be endorsed as proposed by the Solar Radiation Management Research Governance Initiative. (SRMGI: (<http://www.srmgi.org/>) as it is the very emissions from these programs that have **already** caused extensive damage to the global population's health and the environment. Ironically, this self-appointed and self-serving SRMG 'governance' stated itself - **“It could be potentially risky when large-scale experiments of this technique are deployed in the real world.”** and from the Christian Science Monitor Nov 11/10; Raw Story Nov 29/10 - **“Even though it no longer takes an Einstein to tag doing more of something that isn't working as "insane", such frightening forecasts are sparking renewed calls for massive chemtrail spraying masquerading as pseudo-scientific "geoengineering" on both sides the Atlantic.”** Another study published in July 2010 by the United States Government Accountability Office stated that **“not one geo-engineering technique is safe and their implementation could cause more damage than the supposed catastrophe they intend to avoid.”** This study concluded that - **“climate engineering technologies do not now**

**offer a viable response to global climate change.”** Even Greenpeace’s chief UK scientist – a staunch advocate of the man-made global warming hoax – Doug Parr – has slammed attempts to geo-engineer the planet as **“outlandish”** and **“dangerous”**.

### ***WEAPONISED WEATHER EXPOSED***

“Few in the civil sector fully understand that geoengineering is primarily a military science and has nothing to do with either cooling the planet or lowering carbon emissions (Report, 6 February). While seemingly fantastical, weather has been weaponised. At least four countries – the US, Russia, China and Israel – possess the technology and organisation to regularly alter weather and geologic events for various military and black operations, which are tied to secondary objectives, including demographic, energy and agricultural resource management. Indeed, warfare now includes the technological ability to induce, enhance or direct cyclonic events, earthquakes, draught and flooding, including the use of polymerised aerosol viral agents and radioactive particulates carried through global weather systems. Various themes in public debate, including global warming, have unfortunately been subsumed into much larger military and commercial objectives that have nothing to do with broad public environmental concerns. These include the gradual warming of polar regions to facilitate naval navigation and resource extraction.” **Matt Andersson** - former executive adviser, aerospace & defence, Booz Allen Hamilton, Chicago <http://www.guardian.co.uk/environment/2012/feb/09/at-war-over-geoengineering>

### ***'STRATOSPHERIC WELSBACH SEEDING FOR REDUCTION OF GLOBAL WARMING' patent***

Plans to implement SAG have been around since at least 1991 – with reports of its activity beginning to surface in the mid 90s. The US Hughes Aircraft Patent #5,003,186 Patented March 26, 1991 called **'Stratospheric Welsbach Seeding For Reduction of Global Warming'** proposed injecting into the upper atmosphere a **“very fine, white talcum-like” powder of aluminum oxide, barium oxide and other oxides for the stated purpose of reducing Global Warming**”. Steve Hamburg, Chief Scientist for Environmental Defence Fund (EDF) and Co Chair of SRMGI said **"Solar Radiation Management could be potentially risky when large-scale experiments of this technique are deployed in the real world."** Using airliners to spray aluminium powder in an effort to avert global warming is called for in the Welsbach patent. It suggested that tiny metal flakes could be **"added to the fuel of jet airliners, so that the particles would be emitted from the jet engine exhaust while the airliner was at its cruising altitude."** The Welsbach patent cautioned that the resulting **"white skies may be unpopular."** And indeed they are! Our blue skies have been stolen from us. SAG has been seen and documented from the ground and is even viewable by satellite. This patent is clearly currently in action exposing the SRMGI as complete farce.

### ***INDEPENDENT UK LAB RAIN WATER TEST RESULTS REVEAL HIGH LEVELS OF HEAVY METAL TOXICITY***

Independent labs in the UK are now detecting toxic levels of aluminium, barium, magnesium and other high levels of conductive and heavy metals elements in rainwater samples where systematic documentation of this activity has been observed and documented.

Also extremely serious cause for concern is that pH levels are reading lower than normal - meaning - **the soil is becoming infertile**. These particular metallic element levels and pH conditions are NOT due solely to ground-based pollutants (ie road traffic and industry) indicating **the source is coming from above ie 'aviation fallout'** – The overlooked major air pollutant in the air comes from aircraft, yet 'aviation emissions regulations' are not being considered when trying to attend air pollution levels, let alone enforced by authorities charged with the responsibility of ambient air quality for public and environmental health. Instead, safety levels are continually raised year after year by the same authorities deliberately to accommodate increasing contamination levels. Not only are air emissions not being factored into causes of air pollution but it appears the entire airline industry's aviation emissions are virtually exempt from CO2 emissions charges all together -

See - [http://www.lne.be/en/ets-aviation/application\\_allocation\\_of\\_free\\_allowances](http://www.lne.be/en/ets-aviation/application_allocation_of_free_allowances)

***"APPLICATION AND ALLOCATION OF 'FREE' (aviation emission) ALLOWANCES!!***

**Directive 2003/87/EC stipulates that in the first trading period (from 1 January 2012 up to and including 31 December 2012), the total quantity of emission allowances to be allocated shall be equivalent to 97% of historical aviation emissions. For the second period that starts on 1 January 2013 (and ends at 31 December 2020), this quantity will be equal to 95% of historical aviation emissions. Of this total quantity of emission allowances, in both trading periods, 85% will be allocated free of charge, and 15% will be auctioned. On 7 March 2011, the European Commission adopted Decision 2011/149/EU whereby the historical aviation emissions were set at 219.476.343 tonnes CO2."**

Dr. Ilya Sandra Perlingieri speaks the truth of the SAG worldwide operation. She states:

**"The chronic assault of breathing/absorbing these now billions of tons of hazardous aerosolized chemicals and heavy metals over more than a decade without our informed consent. When one does not look for or address primary causes, then other issues can be blamed. This, on top of a government's silence or refusal to respond and the corporate media's complicity, make for an extremely dangerous combination that puts us all at grave and daily risk. As brain function is diminished, and other things are blamed for it, any population is easier "to control."**

Public requests for more accurate detection of causes of symptoms via appropriate blood tests for heavy metals are being denied by doctors in the UK and worldwide – When presented with requested rainwater tests demonstrating toxic elements in the air ARE over the safety limit levels – doctors are continuing to ignore the rainwater results, insisting they will only give heavy metal blood tests based on 'drinking water' test results – deliberately avoiding testing what is in the air and thereby stonewalling toxicity results patients are finding themselves. This is clearly not 'responsible' healthcare. Only patients who can afford to pay privately for specific blood or hair analysis tests are able to discover the direct correlation between heavy metals and an exhaustive list of diseases – meaning, the true causes of symptoms are being deliberately ignored by allopathic medicine and all the doctors who practice it - the Hippocratic Oath is thus better defined as Hypocritical Oath – care of patients clearly has been replaced by corporate, pharmaceutical interests who make more money keeping the public ill than by helping them get well.

***DELIBERATE STIGMATISING of TERMINOLOGY TO DISCREDIT PUBLIC CONCERN***

The public's term for Stratospheric Aerosol Injection (SAI) is 'chemtrails' - A Google search for this term elicits about 8,490,000 results – This term used by the public to describe what they see has been deliberately twisted into a discrediting tactic to divide and conquer those who dare to question what is clearly going on above all our heads - In point of fact, this term was 'officially' used "On October 2, 2001, by **Rep. Dennis Kucinich who introduced the "Space Preservation Act of 2001" (HR 2977) which called for the elimination of "exotic weaponry" from space. Among the weapons to be banned were weather-modifying weapons such as ... "chemtrails" The original bill acknowledging this technology remains on the pages of the Congressional Record to this day."**

The public are not in any way referring to the natural vapour trails (contrails) that used to come from the exhaust of jets before these toxic particulates were introduced into jet fuel in unmarked military, private and commercial airlines since the mid 90s to the present day. The Met Office in collusion with the con perpetrated on the public has even given Stratospheric Aerosol Injection emission formations 'official cloud names' that did not previously exist prior to the commencement of SAG in the mid 90s. The subliminal covert and overt propaganda war to sway public opinion is deliberate and insidious - manufactured names of SAI are being taught in schools to create the illusion that they are 'natural' clouds formations. Obviously they are not - Our children are being coerced to believe a lie, along with unsuspecting adults susceptible to the

subliminal images of SAI inserted ubiquitously now in all forms of advertising and media in an attempt to make the criminal SAI activity appear normal and natural and thereby 'acceptable'.

**FACT - AIR POLLUTION is the BIGGEST KILLER IN THE UK.**

Statistics from 2010 state **29,000 premature deaths resulted from air pollution** with the **highest demographic being 4,300 deaths in the capitol of London**. Long term exposure to air pollution reduces life expectancy (statistically) by 11.5 years. 58% of the (PM) 'particulate matter' pollutants were identified as coming from ground traffic, yet the source of the remaining 42% - 'aviation' emissions - was completely ignored. When questioned at an air quality meeting at Wandsworth Town Hall on the 21st March 2012 (<http://outofbreathwandsworth.eventbrite.com/>) as to why aviation emissions were not being factored into testing sources of air pollution in London, Mrs Jill Phillips, of Wandsworth Technical Services Department said, "there aren't enough funds to conduct heavy metals testing" yet £4 BILLION is somehow being sourced at a time of austerity to clean up the Thames.. AND the government are somehow able to fund 14,000 troops along with navy and air force for 'alleged' security purposes against 'alleged' terrorism threats during the London Olympics. (There is now a larger military presence in London than in Afghanistan) These irresponsible inconsistencies of the allocation of fast-diminishing public monies must be immediately redressed, reprioritised and rectified. Heavy metal and other particulate testing must be prioritised and implemented nationwide immediately to assess and expose the pollution level emissions of jet planes, unmarked military, private and commercial airlines combined as **"the chemtrails we are too familiar with after a decade-long dose continue to inflict eye infections, nosebleeds, skin sores, muscle pain, chronic exhaustion, weakened immunity, acute asthma and allergies, short-term memory loss and heart attacks on people in more than a dozen countries."** [<http://www.americanskywatch.com>; Chemtrails Confirmed 2008 by award-winning veteran *journalist* WilliamThomas]

"Tiny Particles Can Kill" the August 5, 2000 issue of *New Scientist* pointed to findings in six cities over 16 years showing that "city-dwellers in Europe and the U.S. are dying young because of microscopic particles in the air." The Neurotoxicology (brain poisoning) division of the U.S. Environmental Protection Agency says that **exposure to airborne Particulate Matter "is an environmental health risk of global proportions."** [Health Risks Of Aerosoled Particulates PubMed Abstract] **"Hearts as well as lungs can be damaged by ultra-fine particles small enough to get into the bloodstream and inflame tissues and cells... After they reach the heart, the particles are thought to cause a stress reaction in cells, producing inflammation that contributes to heart disease. The particles also may cause blood clots."** [Los Angeles Times Dec 29/03]

**AVIATION EMISSIONS FORM FAR-REACHING CIRRUS CLOUD COVER - irrefutable -**

Frank G Noppel confirmed this was a problem back in 2004 in his PhD thesis entitled **"Contrail and Cirrus Cloud Avoidance Technology" (Noppel%202007.pdf) CONFIRMING SCIENTISTS ARE WELL AWARE CONTRAILS FORM CIRRUS CLOUD**. Mr Noppel proposed technology (with patents of his own) to PREVENT contrail cirrus cloud occurring, due to the concern about the escalating aviation emissions blocking the sun thereby cooling surface temperatures by day whilst warming them by night - yet clearly nothing is being implemented as the emissions continue to escalate globally. READ the following facts as stated by Mr Noppel -

**"1.2 Aviation and the global atmosphere**

Aircraft pollutants are radiatively or chemically active substances which can reflect or absorb solar or terrestrial radiation or alter the chemical composition of the atmosphere. **Particulates and water vapour lead to the formation of CONTRAILS, which, because of their radiative properties, CONTRIBUTE to global warming**. Aerosols also play an important role in the formation of cirrus clouds that would NOT form in the absence of aviation, resulting in enhanced cloud formation and the modification of the radiative properties of natural cirrus clouds.

In average, the backscattering of terrestrial radiation by the contrail's ice crystals is more effective than the reflection of solar radiation, creating a net positive radiative forcing.

First concerns regarding air-traffic and their effect on the climate were made by Appleman [1966].

The potential effects of contrails on the climate were then again discussed by Schumann and Wendling [1990]. Sausen et al. [1998] presented first estimates regarding global contrail coverage, and the issue found its way into the IPCC special report [Penner et al., 1999]. Since then, a large number of studies have been performed to understand formation mechanisms of contrails and their impact on the global climate.

During the tragic events of the 11 September 2001, the airspace over the USA was shut down for commercial and personal air-traffic for a time period of about 36 hours, resulting in the absence of contrails over the USA. Although contrails have a heating effect on the atmosphere on a global scale, they cause locally lower temperatures on the earth's surface during daytime and higher temperatures during night time [Ponater et al., 2002]. **The average diurnal temperature range**, which is the difference between the daytime minimum and nighttime maximum occurring temperature, **is hence reduced in the presence of contrails**. Travis et al. [2002] measured the average diurnal temperature range for the periods 8-11, 11-14 and 14-17 September 2001 and calculated its departure from the normal values derived from climatological data between 1971-2000 as shown in figure 1.8. The increase in the departure of average diurnal temperature during the 11-14 September 2001 is larger than it has ever been in the previous 30 years, and it is suggested that the anomaly occurred due to the absence of contrails during the shutdown.

The IPCC reported a radiative forcing from linear persistent contrails of about 20.0 mW/m<sup>2</sup> for the year 1992, which was approximately 42% of the total aviation induced radiative forcing. A more precise estimate of the radiative forcing from persistent linear contrails is given in Sausen et al. [2005] with 10.0 mW/m<sup>2</sup>, representing approximately 20% of the total radiative forcing from air traffic. The future development of contrail cover and the associated radiative forcing has been investigated by Marquart et al. [2003]. **Results suggest that annually and globally averaged total contrail cover and the associated radiative forcing approximately quadruplicates during the next decades due to the increase in air-traffic.**

**Contrails, contrail cirrus, secondary cirrus and cirrus modification have the potential to cause a radiative forcing exceeding that of all other air-traffic pollutants combined."**

#### ***UK GOVERNMENT ADMITS AVIATION EMISSIONS POLLUTE 2-4 TIMES GREATER THAN CO<sub>2</sub>***

An extract from the **aviation White Paper by the UK Department for Transport** [2003] sends first signals on how aviation pollutants other than CO<sub>2</sub> are already perceived:

**"The impact of aviation on climate change is increased over that of direct CO<sub>2</sub> emissions alone by some of the other emissions released and their specific effects at altitude. These effects include increased tropospheric ozone, contrail formation and a small amount of methane destruction. The environmental impacts of aircraft have been assessed by the Intergovernmental Panel on Climate Change (1999) and more recently by the Royal Commission on Environmental Pollution (2002), and they are thought to be 2-4 times greater than that from CO<sub>2</sub> alone. The broad conclusion that emissions are significantly more damaging at altitude is clear."**

#### ***LACK OF SUNSHINE DUE TO CONTRAIL CIRRUS CAUSES VITAMIN D LEVELS TO PLUMMET WORLDWIDE –***

Dangers of vitamin D deficiency highlighted -<http://www.dh.gov.uk/health/2012/02/vitamin-d/>  
Hazing and blocking out of the sun to the earth by aviation emissions is reducing the world's

primary source of Vitamin D. "The UK Government's chief medical officer, Dame Sally Davies recommended that "all under-fives take vitamin D supplements to aid bone strength" while experts from the British Association of Dermatologists, Cancer Research UK, Diabetes UK, the Multiple Sclerosis Society, the National Heart Forum, the National Osteoporosis Society and the Primary Care Dermatology Society have said exposure to sunlight is essential to combat a range of conditions." <http://www.cambridge-news.co.uk/Home/Doctors-fight-soaring-Vitamin-D-deficiency.htm> Yet this is becoming increasingly difficult as according to NASA itself the world has seen a 20% loss of sunlight and geoscientists now admit that aerosol spraying forms man-made clouds that spread to create a sky shield. The sky shield reduces sunlight and is called "global dimming". Geophysicist, Ken Caldeira, a receiver of huge funding for SAI, ironically publicly worries that massive aerial spraying would cool the stratosphere by diverting incoming sunlight, creating CFC-laden ice-clouds that "could destroy the ozone layer." [from *Chemtrails Confirmed 2010* by William Thomas] Rutgers University professor, Robock should know - he worked on the Global Dimming dilemma with Prof. Farquhar. Now this declares that geoengineering experiments (a.k.a. stepped-up chemtrails) "could create disasters, damaging the ozone layer and potentially altering the stratosphere by eliminating weather patterns such as the annual Asian monsoon rain season, which two-billion people rely upon to water their crops and feed the population. "If you fiddle with the radiative balance of the planet, you affect all sorts of circulation patterns like monsoons, which would have horrible effects on people," Dr. Cox concludes. "So it would be extremely difficult, in fact impossible, to cancel out the greenhouse effect just by carrying on pumping out particles." [BBC Apr 19/09]

And just one of many new articles coming out in the mainstream confirming the above –

**'Climate engineering to 'cure' global warming could turn sunny blue skies WHITE' -**  
<http://www.dailymail.co.uk/sciencetech/article-2155450/Climate-engineering-cure-global-warming-turn-sky-WHITE-claim-scientists.html>

#### ***UNMARKED JETS CAUSING CONTRAIL CIRRUS CLOUD COVER UNTRACKABLE WITH PUBLICLY ACCESSIBLE FLIGHTCHECKER***

Attempts to track the unmarked jets in our skies spraying aerosols in patterns that are clearly NOT commercial aircraft have been fruitless – as none are locatable on the flight tracking radar available to the public - indicating the in-plain-sight activities of unmarked jets are being carried out by military or privately funded jets without public disclosure and knowledge.

The 1990 Environmental Protection Act has a list of nuisances to which abatement (reduction) procedures apply. These include: any accumulation or deposit which is harmful to health or a nuisance (see section 79(1)(f)) – The public are being stymied from being able to use this law due to all authorities denying the existence of these activities. A clear violation of their duty of care to the public welfare.

**As every attempt by citizens to report aerosol spraying by jets is consistently ignored by authorities responsible, it must therefore be construed that the government is either wilfully negligent and/or complicit with these activities which point to military and/or private companies, of which there are countless performing weather modification services which are for sale on the open market.**

**See weather modification patents -** <http://rezn8d.net/2011/11/28/weather-modification-101-100-years-of-cloud-seeding/>

The above is now augmented with countless unmanned drones patrolling our skies for the impending Olympics along with 13,000 military, army, navy, EMF (electromagnetic frequency) laser crowd control – NONE OF THIS HAS HAD PUBLIC CONSULTATION NOR PERMISSION

***THE WEATHER IS BEING TRADED ON THE STOCK MARKET –***

**Insurance companies are complicit with weather modification companies –**  
[http://www.globexnymex.com/trading/weather/files/WEA\\_intro\\_to\\_weather\\_der.pdf](http://www.globexnymex.com/trading/weather/files/WEA_intro_to_weather_der.pdf)

"To date, **utilities have been the largest end-users of weather derivatives.** However, **there are many other businesses in which weather has a major impact on revenues.** It is anticipated, for example, that positions in agricultural commodities will be hedged with weather contracts more extensively than power and gas positions because of the long series of historical data available in the 2 agricultural markets. Because growing degree days and cooling degree days are very similar, standard weather contracts could be used to hedge commodity price risk. One of the CME-listed cities is Des Moines, and we present some calculations that demonstrate how a considerable fraction of the volatility of corn prices in Iowa could be hedged using weather options. The challenge in such cross-commodity hedges is the development of appropriate weather pricing models.

**The WMO (World Meteorological Organisation states itself - "Currently, there are dozens of nations operating hundreds of weather modification projects." Without disclosure to the public, weather modification programs have been in operation within individual nations for decades. see – <http://www.agriculturedefensecoalition.org/?q=weather-modifications> for a listing of all programs and NOAA Spreadsheets Listing Ongoing Weather Modification Programs**

**From the World Meteorological Organisation website -**  
<http://www.wmo.int/pages/prog/arep/wmp/weathermod.html>

**"Weather Modification Research Programme (WMRP)**

CAS-MG2/Doc 4.4.1, Appendix C

***WMO DOCUMENTS ON WEATHER MODIFICATION APPROVED BY THE COMMISSION FOR ATMOSPHERIC SCIENCES MANAGEMENT GROUP, SECOND SESSION, OSLO, NORWAY, 24-26 SEPTEMBER 2007***

---

#### **EXECUTIVE SUMMARY OF THE WMO STATEMENT ON WEATHER MODIFICATION**

"In recent years there has been a decline in the support for weather modification research, and a tendency to move directly into **operational** projects. Currently, there are dozens of nations operating hundreds of weather modification projects, particularly in arid and semi-arid regions all over the world.

**Operational programmes should be conducted in full recognition of the potential risks and benefits inherent in a technology which is not totally developed.**

In recent years, the seeding of warm and cold convective clouds with hygroscopic chemicals to augment rainfall by enhancing warm rain processes (condensation/collision-coalescence/break-up mechanisms) has received renewed attention through model simulations and field experiments.

Operational weather modification projects should be reviewed periodically (annually if possible) to assess whether the best practices are being used.

8. The Members should be aware that the scope of efforts involved in the design, conduct or evaluation of a weather modification programme precludes the WMO Secretariat from giving detailed advice. However, if requested, the Secretary-General may assist (by obtaining advice from scientists on other weather modification projects or with special expertise) on the understanding that:

(a) Costs will be met by the requesting country;

(b) The Organization can take no responsibility for the consequences of the advice given by any invited scientist or expert;

(c) The Organization accepts no legal responsibility in any dispute that may arise”

**The lack of accountability and transparency from EVERY organisation involved in conducting or advising on weather modification beggars belief - whilst the public are kept dumb and expected to bear the consequences without question nor access to legal resources to have these programs terminated.**

### ***INTERNATIONAL, CLANDESTINE WEATHER MODIFICATION PROGRAM IS A FACT***

**Rosalind Peterson** is California President and Co-Founder of the Agriculture Defense Coalition. <http://gunnyg.wordpress.com/2008/09/06/more-and-more-weather-modification-programs-are-planned-without-your-knowledge-or-consent/> She states -

#### **What meteorologists and the media are not telling you – Rosalind Peterson**

“The National Oceanic & Atmospheric Administration (NOAA), will provide to anyone that requests the list, a copy of experimental weather modification programs ongoing (as well as historical), in the United States. This list is not complete due to the fact that many experimental weather modification programs are “classified top secret” by the U.S. military. These experimental programs are unregulated and are not subject to oversight by anyone. In addition, the public, ranchers, watershed supervisors, forestry, the Environmental Protection Agency, states, agriculture food producers, fish and game agencies, local counties, and anyone else that depends upon the weather, are usually not notified in advance of these programs being initiated.

NOAA has, under its umbrella, the National Weather Service (NWS). If the NWS is notified about these experimental weather programs, they rarely put this information into their state and local weather forecasts, leaving the public to believe that their weather is “normal” or that “extreme and other weather events” are caused by climate change or “global warming.” The NWS provides weather information to local, county, and state meteorologists who then use this information to add to local weather forecasts in the area where you live, but most neglect to advise the public about these modification programs.” - **(again – see <http://www.agriculturedefensecoalition.org/?q=weather-modifications>)**

The only public disclosure of these operations to the public thus far has been this year’s media campaign positing SRM as a ‘hypothetical’ solution to attend the lie of global-warming-attributed CO2 remediation as stated in the - **Coordinated working with US House of Representatives Science and Technology Committee - <http://www.publications.parliament.uk/pa/cm200910/cmselect/cmsctech/221/22104.htm> - a2-**

In actuality, these operations have been being conducted by the unaccountable, military industrial complex involving the USA, the UK, Australia, Canada and all NATO countries.

The USA Federal government spent nearly \$70 billion on ‘climate change activities’ since 2008 – <http://dailycaller.com/2012/05/17/federal-government-spent-nearly-70-billion-on-climate-change-activities-since-2008/?print=1> - So again – to deny any weather modification activity is ALREADY in operation is blatant ignorance or complicity.

### ***INTERNATIONAL AGREEMENTS AGAINST ANTHROPOGENIC AIR POLLUTION AND WEATHER MODIFICATION***

- **(CLRTAP) - ‘Convention on Long-range Transboundary Air Pollution’ -**

CLRTAP OPENED FOR SIGNATURE IN 1979 AND ENTERED INTO FORCE ON MARCH 16, 1983. THE UNITED STATES BECAME A PARTY TO THE CONVENTION IN 1979. (THE UK HAS ALSO ENTERED INTO THIS CONVENTION) CONTRACTING PARTIES COMMIT THEMSELVES TO

LIMITING, AND TO GRADUALLY PREVENTING AND REDUCING THEIR DISCHARGES OF AIR POLLUTANTS AND THUS TO COMBATING THE RESULTING TRANSBOUNDARY POLLUTION. LONG-RANGE TRANSBOUNDARY AIR POLLUTION IS DEFINED BY THE CONVENTION AS THE HUMAN INTRODUCTION OF SUBSTANCES OR ENERGY INTO THE AIR WHICH HAVE DELETERIOUS EFFECTS ON HUMAN HEALTH, THE ENVIRONMENT, OR MATERIAL PROPERTY IN ANOTHER COUNTRY, AND FOR WHICH THE CONTRIBUTION OF INDIVIDUAL EMISSION SOURCES OR GROUPS OF SOURCES CANNOT BE DISTINGUISHED

- **(ENMOD) -1976 Environmental Modification Treaty -**

Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques

ref: [https://en.wikipedia.org/wiki/Environmental\\_Modification\\_Convention](https://en.wikipedia.org/wiki/Environmental_Modification_Convention)

ref: <http://www.icrc.org/ihl.nsf/INTRO/460>

### **PUBLIC MANIPULATION**

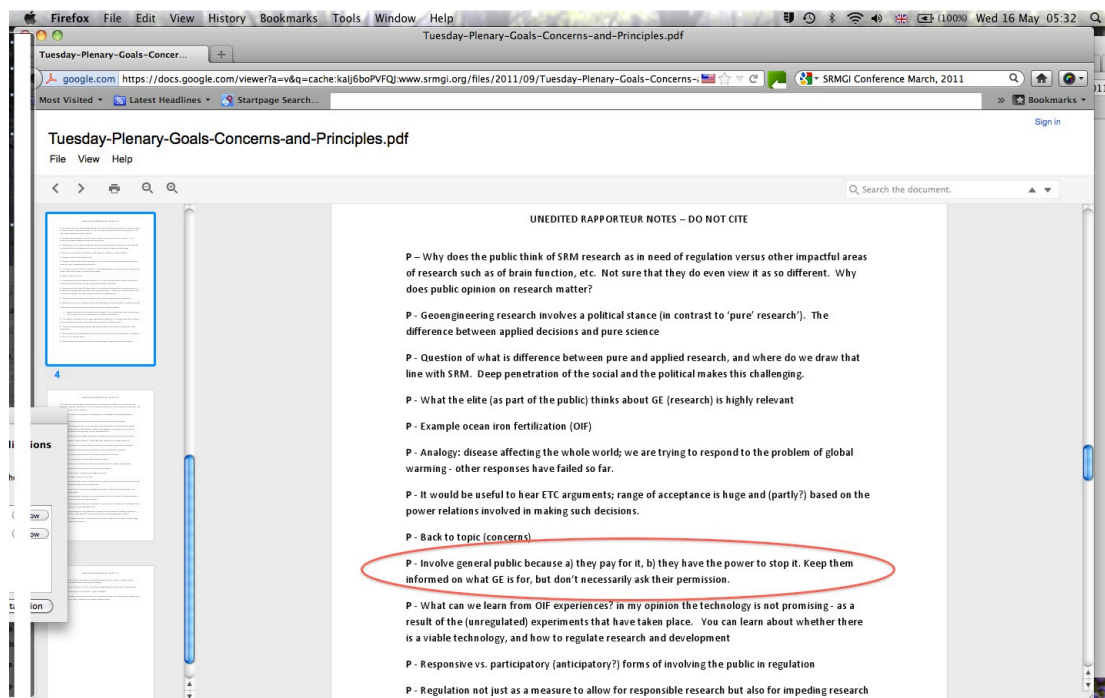

**The film “An Inconvenient Truth” was a convenient lie** - “using a biased presentation to exploit the fears of the public for political gain” **and** “a blatant intellectual fraud” now used to misinform an entire generation -

- As part of a nationwide "Sustainable Schools Year of Action" launched in late 2006, the UK Government, Welsh Assembly Government and Scottish Executive announced between January–March 2007 that copies of *An Inconvenient Truth* would be sent to all secondary schools in England, Wales and Scotland. The film was placed into the science curriculum for fourth and sixth-year students in Scotland as a joint initiative between Learning and Teaching Scotland and ScottishPower

### **Public awareness of SAG has been deliberately suppressed and now manipulated.**

The recent Royal Society funded Solar Radiation Management Governance Initiative (SRMGI) indict themselves about the deliberate manipulation of the public in their own notes -

"P - **Involve general public because a) they pay for it, b) they have the power to stop it. Keep them informed on what GE (geoengineering) is for, but don't necessarily ask their permission.**" (see screenshot below taken from [https://docs.google.com/viewer?a=v&q=cache:kalj6boPVFQJ:www.srmgi.org/files/2011/09/Tuesday-Plenary-Goals-Concerns-and-Principles.pdf+http://www.srmgi.org/files/2011/09/Tuesday-Plenary-Goals-Concerns-and-Principles.pdf&hl=en&gl=uk&pid=bl&srcid=ADGEESgyKg-sFlgaJK-ReuLRlx-TUHwkN20kjIXso3mKYoDdylNJH-yKQP9gSr7TASdwMplL\\_hRHTtoPhdoC9UCrah466WvwyZynNDQfso4VJHk71IAEqPDcejrGP9JeSpEkpvl\\_1LaE&sig=AHIEtbSoh8A5Fhmwh4cQAGA\\_df12nmmYbQ](https://docs.google.com/viewer?a=v&q=cache:kalj6boPVFQJ:www.srmgi.org/files/2011/09/Tuesday-Plenary-Goals-Concerns-and-Principles.pdf+http://www.srmgi.org/files/2011/09/Tuesday-Plenary-Goals-Concerns-and-Principles.pdf&hl=en&gl=uk&pid=bl&srcid=ADGEESgyKg-sFlgaJK-ReuLRlx-TUHwkN20kjIXso3mKYoDdylNJH-yKQP9gSr7TASdwMplL_hRHTtoPhdoC9UCrah466WvwyZynNDQfso4VJHk71IAEqPDcejrGP9JeSpEkpvl_1LaE&sig=AHIEtbSoh8A5Fhmwh4cQAGA_df12nmmYbQ) )

Professor David Keith, employed by the Royal Society and whose company, 'Carbon Engineering' is privately funded by Tar Sands magnate, Murray Edwards and endorsed by Richard Branson, spoke in the hypothetical about the proposed use of SRM on Hard Talk (BBC) on 16-11-11 -

"What's unusual and SCARY is that with tiny amounts of money and effort we can directly alter the climate by putting these reflective particles in the stratosphere and that has profound implications right up to geo-political implications." He said it raises "security" and "governance challenges". When asked how it can work whether it is feasible, how much it costs, is SRM (Solar Radiation Management) the path which looks as if it is viable at the moment - he answered 'no'.. A later slip of the tongue had Mr Keith unwittingly confirming he did not approve any public action of these programs - "I am happy to see PRIVATE action on cutting emissions by making solar power, more electric vehicles or capture from air - I'm NOT happy to see PUBLIC action on technologies where there's huge leverage by putting particles in the stratosphere" He also admitted, "People should be concerned about cheap technologies that can manipulate the entire planet's climate" Mr Keith goes on to describe the alleged 'proposed' SRM technique that is actually already in full operation saying - "You could use aircraft to deliver tonnes or literally MILLIONS of TONNES of very small particles into the upper atmosphere (- irrefutable similarity to the Welsbach patent)

### ***THE PUBLIC ARE NOT HAPPY ABOUT ANYTHING BEING SPRAYED ON THEM - NOT EVEN WATER***

When the recent Stratospheric Injection for Climate Engineering project (SPICE) attempted using an SRM technique purportedly only injecting water into the atmosphere, the public reaction was not supportive of even water being sprayed into the atmosphere (<http://www.nature.com/nature/journal/v485/n7399/full/485415a.html>) It can surely be assumed as a given the public would not support anything else being sprayed if they were fully informed.

**NO permission regarding weather modification has EVER been requested of the public therefore NO permission has ever been given in ANY country.. so NO organisation NOR government NOR private individual has a legal right to be doing this - yet this has gone**

ahead anyway - and therefore is a violation of human rights. (Dr Ilya - This is inescapable abuse )

#### ***FOLLOW THE MONEY -***

As is blatantly apparent with David Keith and Ken Caldeira's financial backing from private individuals such as Bill Gates and Richard Branson, so it is that **all government/university science is in truth privately funded and therefore has an agenda - AGENDA 21 to be precise - <http://www.youtube.com/watch?v=o3qW2XJZdSA&feature=related> - which is NOT in any way shape or form in the public interest.** To help this along, **all environmental groups have been manipulated to depend on perpetuating the lie of global warming to sustain their own funding and survival.** This article clearly explains the reason - **The Great Riddle: Greenpeace and the Chemtrail Question** (<http://www.holmestead.ca/chemtrails/r+z-gp.html> - footnotes)

The ETC (<http://www.etcgroup.org>) group said "**Rich governments (and wealthy individuals) are hoping for quick fixes rather than risk inconveniencing their electorate or offending industry**" stating that "**A moratorium on real-world geoengineering experimentation is urgent.** Additionally, the CBD, the UN Environment Programme (UNEP) and / or the UN General Assembly should seek the advice of the International Court of Justice to confirm that **geoengineering experimentation would be a violation of the 1978 Environmental Modification Treaty (ENMOD).** Any and all gatherings of nations' leading organisations should tackle head-on the governance of geoengineering as well as the evaluation of other new and emerging technologies that pose grave threats to the environment and to the hundreds of millions (99%) of people who depend upon its health for their livelihoods vs the very few (1%) depending on the perpetuation of geoengineering for their indulgence.

See - <http://www.criticalcollective.org/?publication=geopiracy-the-case-against-geoengineering>

#### ***THE LIE OF THE GLOBAL WARMING JUGGERNAUT NOW BEING USED TO JUSTIFY SRM USING S.A.I. MUST CEASE IMMEDIATELY***

*The Climate Change: Climate Engineering Research Under Review at Copenhagen Consensus 2012* exploration of global policy (dated 5/4/2012) sought to answer the question - "If the global community wants to spend up to, say, \$75 billion over the next four years to do most good for the world, which solutions would yield the greatest net benefits?" Despite global warming having been exposed as a lie, the answer was - "It would appear that only rapid, repeated, large-scale deployment of potent, shortwave, geoengineering options (e.g., stratospheric aerosols) could conceivably cool the climate to near its preindustrial state on the 2050 timescale." Once commenced, termination is unlikely - "For two reasons, once SRM starts, there will be strong incentives to continue it. First, termination would be unlikely just because it would be costly. Second, as interest groups organize around existing programs, government policy often develops strong path dependence. In sum, SRM is a family of technologies that could offer immense benefits. The proposed research program is inexpensive, a small fraction of current climate science R&D spending and the CC12 budget. The time has come to begin researching this approach to dealing with climate change."

***The ENTIRE GREEN INDUSTRY risks implosion for the very same financial reasons when the lie is fully exposed.***

From "*The economics (or lack thereof) of aerosol geoengineering*" - by Marlos Goes · Nancy Tuana · Klaus Keller

**"Aerosol geoengineering not carefully balanced by CO2 abatement constitutes a conscious temporal risk transfer that arguably violates the principle of intergenerational justice. Substituting aerosol geoengineering for greenhouse gas emissions abatements constitutes a conscious risk transfer to future generations, in violation of principles of**

**intergenerational justice which demands that present generations should not create benefits for themselves in exchange for burdens on future generations."**

***DDT - A REMINDER - THIS HAS HAPPENED BEFORE -***

In 1962 of Rachel Carson's classic *Silent Spring*, which described the results of the misuse of Monsanto's manufactured DDT and other pesticides. In the fable that began that volume, she wrote: "It was a spring without voices. On the mornings that had once throbbed with the dawn chorus of robins, catbirds, doves, jays, wrens, and scores of other bird voices there was now no sound; only silence lay over the fields and woods and marsh." *Silent Spring* was heavily attacked by the pesticide industry and by narrowly trained entomologists, but its scientific foundation has stood the test of time. Misuse of pesticides is now widely recognized to threaten not only bird communities but human communities as well. The very same makers of this pesticide – **Monsanto** - have now geoengineered 'aluminium-resistant' seeds that places like Hawaii now have to purchase due to the elevated levels of aluminium in the fallout from chemtrails.

[http://www.stanford.edu/group/stanfordbirds/text/essays/DDT\\_and\\_Birds.html](http://www.stanford.edu/group/stanfordbirds/text/essays/DDT_and_Birds.html)

"With his "SE-5" plus radioanalysis machine, Idaho Observer subscriber, Max Willard, 67, of Roseville, Calif., found that chemtrails over his hometown contained a variety of contaminants that include DDT, hepatitis B, anthrax, DDT, and several varieties of flu and viruses associated with AIDS." <http://forum.prisonplanet.com/index.php?topic=102459.0>

***Finally..***

**"Denial is a very powerful human emotion. In the hustle and bustle (now quite out of hand, for reflective time), how many people look up at the sky? It also takes huge courage, a very deep, internal willingness to examine politically motivated corporate controlled media spin, and search for the real answers. Humans like their regular routines. To re-examine what we think we know, based on new evidence, takes a willingness to think outside the proverbial box; to want to find out the truth –not the pervasive Orwellian doublespeak that pervades our society. If everything in our daily routine belies what is truly going on, it requires fortitude (and a dedication to integrity) to explore the unknown – to question the litany." *Dr. Ilya Sandra Perlingieri***

If you do not prioritise truth and heart over opportunism, the following is likely to be ignored – but if you do, please attend to this directive and reconnect to your heart and conscience to act on this most urgent of all our UK community's priorities.

---

# The Unified Atmospheric Preservation Act

Author: R. Michael Castle Written in Plain, Understandable English

(Adapted for the UK 21st June 2012) by [Chemtrails Project UK](#)

**The following is the directive to MPs to enforce as law as representatives in the employ of the public of the UK:**

**The Unified Atmospheric Preservation Act** as presented to the US Congress in 2008 by Dr. R. Michael Castle - <http://anticorruptionsociety.files.wordpress.com/22010/04/the-unified-atmospheric-preservation-act.pdf>

***Preamble** “ We the people of the UK, demand this Civil Law be immediately instigated via the Magna Carta which empowers the public to hold accountable the monarch and the government of the day for any actions violating human rights through the utilization of aerial deployments regarding aerosolized chemicals or biological agents and/or Bio-Chemical Mutations and banning all for any purpose in UK Airspaces, as has already been used for UK and USA Global Warming Mitigation, Climate Change and/or Weather Modification programs deployed into the unified atmosphere over the UK, United States, Canada and beyond. Continued chemtrails (SRI) spraying will result in irreparable, long term, toxic and heavy-metal poisoning of the populace. This Preservation and Protection extends to prevention of contamination via toxic fall-out onto the infinite environment of the UK, United States and Canada and all neighbouring nations in both hemispheres, which includes our air-column, land masses, rivers, lakes, and ground-waters, forests and seas and all foods. The **ENMOD** treaty and **CLRTAP** agreement are to be enforced immediately to protect our atmosphere and upper-atmosphere from Chemtrails, Aerosolized Contaminants, Weapons and all forms of toxic contamination. This Environmental Terrorism is to cease immediately”*

**Attention UK Parliament, people, and all elected officials.**

*This Draft-Law Document has been written, ‘By the People’ to stop and halt all ChemTrails aka Solar Radiation Management via Stratospheric Aerosol Injection (SRM via SAI) bombardment and the literal poisoning of the Earth’s Breathable Air Column. This subject shall NOT be debated, UAPA8 is a Civil Complaint and Demand to the UK parliament for Protection of all Life Forms’ Breathable Air Column, Life and Liberty.*

*Written by We the People in ‘plain-Civil and simple, understandable English language so all can understand exactly what is expected of the UK Parliament in this Air Emergency-matter. There will be zero-respect given to any official protocols of preparation for this Document, or Submittal(s) thereof; This Document fully states Our Demands.*

---

## **UAPA8**

A proposed Law to be passed and enforced immediately that bans and forever prohibits the deployment or otherwise released, into or onto the Earth’s Natural Atmospheric/Stratospheric column and Breathable Air Column.

This Law will prohibit-the-formation or Act as an Instrument for dissolution targeting the UK Weather Control Board or Agency; Weather Manipulation is a part of identified function and

purpose of the toxic chemicals and biological mutation agents, therefore, Weather Modification and Control will be prohibited due to the absolute toxicity profile of the agents used for manipulation, management or controls. A specific ban on ALL national or regional Agencies use of 'crisis exemption' loopholes that allow wide and varied spraying of any chemicals into the Breathable Air Column, toxic or not. This specific rescinding is due to the collusion and probable criminal corruption of Agencies and Corporations, Contractors and/or Developers of chemical agents.

## **The Unified Atmospheric Preservation Act (UAPA) adapted for the UK**

**UK PARLIAMENT Shall Make and Pass This Law that will ban the following immediately:**

**NB - If any of the following is deemed 'in-actable' by current authorities due to a conflict of sworn allegiance between corporate or royal interests above those of the public, then those authorities shall be immediately deemed no longer 'in authority' – replaced by new representatives swearing allegiance to the public welfare above all. All members of the British Constabulary who have had their allegiance subverted to a corporation will be immediately released from this obligation to revert their allegiance to the public above all.**

1. **Mixtures** (any Organic or Inorganic chemicals or compounds, elements of the Periodic Table, gases, solids or plasmas) of chemical materials known as "chaff" from military training operations. Ceasing the operation of Chemical trails (ChemTrails) aka Stratospheric Aerosol Injection activities by planes that occlude sunlight. Weather modifications or any combination of chemical biological mixtures used for any purpose are expressly prohibited;
2. **"Cloud Seeding" and Atmospheric/Stratospheric "seeding"** technology that utilizes chemicals, gases, synthetic filament carriers or biological substances such as pseudomonas strain germ or mutations thereof, or any sort for the purpose of weather manipulation/modification, such as precipitation, drought, cyclonic, ultra-violet, infra-red heat or cosmic storm managements are prohibited.
3. **Electro-Magnetic** radiation/radio and **SCALAR** or **plasmic** energy waves generated, **HAARP's Array, Cell-Tower** transmitted, propagated, reflected or otherwise articulated into a focused beam or pattern that has the intended purpose of manipulating weather- systems, causing droughts, heating weather-systems or otherwise energizing, or utilized in a mixed waveform of mind-control, experimental or operational.
  - a. These banned wave form weapons shall include: Microwave spectrum, Acoustic and Sonic spectrum, including Infra spectra to lowest base-sonic range and all in between, Extreme-Low Frequency (ELF) and VLF to magnitude Extreme High Frequency spectrum, all energies Waveform between these EMF points of magnitude, all energies traveling through any portion of Atmosphere, Bedrock or Waters, or reflected back to the planet's surface for intent and purposes described herein.
  - b. Focused or spatial-bleed of radiations would result in total and cumulative radiation dosages resultant in cellular damages to Humans and the Environment of Plant and Animal Kingdoms. The use of such technologies exceeds pre-set EMR thresholds and limitations and is therefore, banned from use.

c. Specifically banned are SCALAR-ELF Energies used for Psychotronic-weaponry for Mind-Control, Behaviors-manipulation, Brain-dimming or other forms of 'classified' Weaponry used experimentally or Operationally, anywhere on the Earth.

4. **Vaccines of any types are banned**, deployed into or unto the Atmospheric/Stratospheric Air Column. Bio-controls deployed aerially are expressly banned and prohibited from usage that has any mixtures of chemicals or biological materials. Bio-controls containing genetically engineered microbes or biological life forms, natural or genetically engineered are banned and prohibited, expressly banned are any Nano-technologies and devices, genetically mutated, self-replicating, synthetic propagation and/or attached to fungal-forms, bacterium's or any combinations thereof, for any reason or purposes.

5. **Prohibition of Aerial-dispensed Pesticides, Herbicides, Fungicides, Pheromones, Hormones, Pollens or seeds of GMO's (Genetically Mutated Organisms)** - Banning 'all' aerially deployed or dispensed pesticides, herbicides, fungicides, artificial pheromones, hormones, Animal or Human intended vaccines. ALL considerations of Agricultural spraying of any sort and which must include all negative effects of Genetically Mutated species on all Life Forms within a 100 Mile radius of the potentially effected area are heretofor banned due to previous and widespread misuse and mismanagement by UK Governmental Agencies and rampant abuse of Aerial-spraying of these chemical and biological toxins. Heretofor, all rights or authority to conduct any of these activities is herein rescinded.

a. All Prohibitions and Bans herein described are expressly focused at any national or regionally-approved contractor of the UK or United States Governments, Military or Agencies Corporate-Military Partnerships, International Contractors or New World Order Contractors or Agencies of Government(s) are hereby prohibited and shall be fully enforceable under Criminal Prosecution by a State's or Federal Court and will be subject to 'War-Crimes Against Humanity charges and Indictments.

6. **Emergency Investigation Funding** – The £4 billion allocated to 'clean up The Thames is to be used immediately to commence an investigation to assess the magnitude of environmental and human damages that have already occurred by the criminal and illegal spraying, deployment or otherwise released toxic materials described herein, into and onto the UK Air Column and the entire Earth's Air Column. This Emergency investigation will have far-reaching effects with intent to hold all Government, Military, Federally Approved Contractors, Corporate-Military Partnerships, all Foreign entities, UK and US Agencies and personnel, accountable for the purposeful and criminal release of extremely toxic agents into the Unified Air Column. Probable Criminal prosecution by a Civil United kingdom Court of Law or future authority as assigned in complete transparent consultation and approval by the UK public, or a Special Prosecutor approved by the UK public. This is an integral part of the Unified Atmospheric Preservation Act of 2008.

7. **International Coordination and Treaty** by the Directives of this Bill, the 'publicly' nominated UK representative shall seek International cooperation through the coordination of all bans and prohibitions set forth in this Legislation, serving as the model and primer for Global Protection of the precious Unified Atmosphere/Stratosphere surrounding this Earth.

a.) The UK parliament shall immediately engage in International discussions for the enjoinderment of the Protections and Preservations set forth in the Unified Atmospheric Preservation Act of 2008 as Model for an International Treaty for the prohibition and banning of 'all' aerosolized chemicals or biological agents and/or genetically engineered life- forms contaminations of Earth, released into the Unified Atmosphere or Stratosphere of the entire planet in accordance with the ENMOD treaty.

**Purpose:** Emergency-level Cessation, prohibition and banning of 'all' aerial dispensement of any chemical/biological/electromagnetic treatments, deployments, managements, modification or manipulation of the Unified Atmosphere/Stratosphere and Air-Column above the UK or any Global portion thereof, via any artificial means, for any and all purposes.

**Scope:** An immediate moratorium by the citizens of the United Kingdom coordinated with citizens of the USA through their currently elected United States House of Representatives, the US Congress and the United States Senate, with the signature of the President of the United States, this legal and binding authorization would put a ban and prohibit the purposeful release of any organic/inorganic chemicals, compounds, elements such as heavy metal aerosol particulates, polymer filaments, dipoles of metallized glass or crystalline compositions. This would include vaccines; bio-controls of genetically altered biological life forms. This Law will effectively abate all fallout (back-to-earth), aerial-released chemicals, biological materials, extraneous and spatial reflected electromagnetic radiation.

**Section 1.** This Law shall ban and prohibit the intentional and purposeful release of all chemical and biological substances into the Unified Atmosphere including the upper atmosphere/stratosphere. Current laws and International treaties do NOT recognize, prohibit or regulate atmospheric/stratospheric releases of chemicals, elements, Focused Radiant- Energies or biological materials which are used in Global Warming Mitigation/Climate Change schemes, all clandestine, Weather-Modification(s), Climate change or other biosphere mitigation strategies OR Vaccines, secret-operations carried out by Corporate- Military Contractors, Foreign Governments or entities of any of the above. This specifically includes the U.S. Government, Branches of the recognized US Military or any Agency Appointee.

These substances and agents currently fall back to Earth, mostly as 'spent-wastes' from Illegal ChemTrails Operations with results of widespread chemical and heavy-metal contamination of breathable air, food, water supplies (including groundwaters), foliage and fauna as well as Humans suffering toxic effects, infestations of Humans and animals via an aberrant, Black-Op Self-Replicating Nano-Technologies. The release of toxic substances will be causative of chemical poisoning and toxicity to the infinite environment and humankind as a whole.

This Law is intended to interrupt and impede current and prevent all future practices of artificial/man-made aerial releases or deployment(s) of various chemicals, which cause residual "fall-out" of pollutants that will descend to the earth's surface, will be absorbed, inhaled or systemically be causative of genetic and cellular damages, heretofore not regulated nor managed and clandestinely and illegally conducted.

**Section 2.** This Law is designed to intercede and bring to immediate cessation any and all current and future operations. To also ban and prohibit deploying of aerosolized polymer filaments, chemical technologies, climate changing/weather modification/manipulation chemicals, and EMR energy-excited operations for the further cause of Global Warming Mitigation.

To declare an immediate national moratorium on the deployment or use of Global Warming Mitigation technologies that are intended to artificially shield the Earth's surface from ultra-violet and cosmic radiation or in-situ reparations of the ozone or ionospheric layers in the unified atmosphere/stratosphere.

i) United Nations General Assembly Resolution 31/72, TIAS 9614 Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques"

ii) Federal statute 15 USC § 330 (enacted 1971) requires reporting of weather modification to the Secretary of Commerce.

**Section 3.** Vaccine Prohibition - Prohibits the aerial release of any artificial vaccine en-masse onto segments of the human or animal species. This encompasses chemical or biological experimentation on humans until such a time when exacting, exhaustive public, civil and

private-sector medical/scientific studies can prove the overall benefit(s) to humans and the environment.

To also inform the Public of the acute/chronic effects that the vaccines will have on humanity and Mother Earth.

No Agency of the United Kingdom or the United States, including the UK and U.S. Military shall have the authority or official capacity to dispense, deploy or otherwise release into any natural or synthetic medium, any mass-vaccine(s) onto/into the Civil-Military or Animal/Creature kingdoms, populaces. Specifically, the UK Prime Minister nor the UK Defense Secretary may order mass aerial vaccines be deployed under ANY circumstances.

**Section 4.** Document Languages/Vectors/Modalities, Human Health Risk Assessments, Environmental Impact Statements, Public and Civil Disclosures shall be written in languages, statistics, data and vocabularies that commonpeople, educated and uneducated, may easily understand and access to read, hear or otherwise be informed of to understand any transmitted communication on the subject(s) of this Law.

All information pertaining to the Unified Atmospheric Preservation Law shall be the responsibility and duty of the UK parliament and/or the County Sheriff of each County within the UK, for collection and transmittal or disbursement of this Law to the public, State Elected Officials, Municipal or Township Officials. The public notification(s) will commence upon this becoming a Law of the Land and Air. Public observations of ChemTrails being sprayed into our Atmosphere will set forth Enforcement and Interdiction to have the County Sheriff arrest the violators for future Criminal Prosecutions.

The County Sheriff is the only Elected Law Enforcement Official as referenced by the United States Constitution. The UK public, and citizens around the globe are entitled to have the same and will be granted the ability to vote for their own County Sheriffs in all regions. The current leaders of governments of the UK and the United States, Agency and Military have authorized and demonstrated hostile actions upon the populace and the environment and therefore cannot be trusted in any aspects of compliance with this Law.

This Law will ensure that pre-deployment knowledge, derived from toxicological and integrative research of Earth's Bio-spherical/Geo-spherical system sciences with disclosure(s) of all Human Health Risks and Environmental Impact factors, be in compliance with the prohibitions and directives contained herein, for any current or future countermeasure technology considerations.

These Standards will prohibit the utilization of HAARPS (Tesla/Eastlund), High-Energy technologies and plasmas transmissions to orbiting geo-stationary satellite receivers and re-transmitting to the Earth's surface. Also prohibits reflected high dosage sources of microwave, Extreme Low Frequency (ELF), Ultra-Low Frequency (ULF) and Electromagnetic Radar/Airborne Chemical synergism Interface via the ionosphere.

I, \_\_\_\_\_ do sign this draft of the UK adapted version of UAPA8 and do hereby swear that I am a sovereign individual (state location of residence) \_\_\_\_\_

**"We, the People, shall prevail"**

**DRAFT**

Prepared and authored by Richard M. Castle, Columbus, Ohio, USA December 7, 2003 Revised  
May 2005 Revised March 14, 2008 email: [ekimcastle@yahoo.com](mailto:ekimcastle@yahoo.com)

***Adapted for the UK on the 21st June 2012 via Chemtrails Project UK***

**Instructions:** To all Recipients of this DRAFT Law 'The Unified Atmospheric Preservation Act of 2008':

Copy and take to City Councils, Township, Counties Officials, elected County Sheriff, States Representatives, Congresspersons and Senators. (MPs)

Always send Certified US MAIL. (UK residents - send as 'registered' mail)

Sign your Legal Name on all copies you receive as this will suffice the same as a Petition.

I, the Author of this Document, Richard Michael Castle hereby sign this Draft of UAPA8 and do hereby, swear that I am a sovereign individual on Franklin Country Ohio

*"I Pray These Protections of Life Will Be Forged"*
